+ PRODUCT INFORMATION

Medical device connectors for neuraxial and regional anaesthesia applications are changing to meet international design standards.

Aseptic Medical Devices offer a standard range of NRFit syringes, selected for their suitability for gamma sterilisation and compatibility with existing manufacturing procedures.

The whole range of products are CE marked and certified under ISO 13485.

User Benefits of NRFit

Dedicated connectors intended to help reduce the risks of misconnections
20% smaller in diameter.
